

# Eckel® Electric Power Unit

## 60HP-50Hz, 380 Volt

Eckel's power units are designed to provide maximum power output from a compact and rugged design. Electric or diesel powered units are available to provide reliable power (65 GPM and 2,500 psi) to tubing tongs and other applications. Hydraulic power units are available in standard or custom designed configurations. Our units meet the industry's highest standard through every step of design, manufacture, and quality-control. Expendable parts are specially selected from the best of recognized brands for easy replacement in any part of the world.

### Features

- 4-Point Lift (Lifting Eyes)
- Hose Basket
- 140 U.S. gallons (530 Liters) Hydraulic Oil Reservoir
- Return Filter - 10 Micron
- Suction Strainer
- Air Blast Heat Exchanger
- Remote Start/Stop Switch with 50 Foot Cable
- Hydraulic Pump Complete With: Unloader Valve, Check Valve, Relief Valve

### EPU SPECIFICATIONS, 60 HP 50 HZ, 380 VOLT

Dimensions	40 x 94 in. (1016 x 2388 mm)
Height	63 in. (1600 mm)
Explosion Proof Electric Motor	
Hydraulic Output @ 65 GPM (246 LMP)	0 - 1,000 PSI (0-68 bar)
Hydraulic Output @ 27 GPM (102 LMP)	1,000 - 2,500 PSI (68.8-172 bar)
RPM Rating	1,500
